[Narrator] Asia is maintaining its growth momentum and resilience in an increasingly complex macro-economic environment.

From its vibrant financial markets and fast-growing digital economy to its Net Zero transition.

The region presents a huge opportunity for businesses around the world.

Having opened our doors in Hong Kong over 150 years ago, HSBC has supported the growth of corporates and institutions across east and west corridors.

With our global footprint across 60 markets and deep local knowledge, we can connect our customers to the world's financial markets as the leading international bank in Asia, Europe, the Americas, and the Middle East.

HSBC has been supporting careers economy as a trusted global financial partner since 1897. Today, HSBC operates as a bank, and a securities company in the country. We draw upon our extensive global network and deep market expertise, to offer financial solutions to local corporates, multi-nationals, and financial institutions.

Global banking and markets is the core of our business in Korea, providing tailored solutions that cater to our customers varying financial needs.

We offer trade financing, cash management, M&A services, custody and trustee services, as well as the brokerage in sale of financial investment products, including equities, bonds and derivatives.

We have achieved significant milestones in the international financial markets over the years, underscoring our financing and advisory strength and expertise, both on the ground and globally.

By placing our customers ambitions at the heart of our strategy, we have received strong, ongoing recognition from the industry including, best international bank, best cash management bank, best trade financing services provider, best sub-custodian, FX house of the year and best R&B bank.

Looking ahead, HSBC Korea is committed to unlocking new opportunities for our customers in the evolving financial markets.

We are here to support growth and sustainability journeys at every step of the way.
